Heads of the National Centers  
National QA/QC Managers

## **Announcement of Research Fellowship in 2023**

EANET is now accepting applications from Participating Countries to the Research Fellowship Program in 2023. According to the Work Programme and Budget of the EANET in 2023 approved at the Twenty-fourth Session of the Intergovernmental Meeting (IG24) on the EANET, the Research Fellowship Program is part of the project activities in 2023.

Three candidates will be selected to carry out their research studies relevant to EANET at the Asia Center for Air Pollution Research (ACAP) in Niigata, Japan for 8 weeks within August to December 2023, based on careful consideration of their application e.g. research theme and focus.

It will be highly appreciated that the NFPs, along with the SAC members, Heads of National Centers and QA/QC Managers inform related agencies and/or research institutes in your countries and encourage young and promising researchers in related areas such as acid deposition and air pollution to apply for this program and facilitate the application from the candidate(s) from your country.

The Application Form (Annex 1) and the Potential List of Research Theme (Annex 2) are attached. The completed application forms should be submitted through the NFP and reach the NC by **16 July, 2023**. If you have any questions on this matter, please contact Ms. Miho TAMURA ([tamura@acap.asia](mailto:tamura@acap.asia)) or Dr. Ken YAMASHITA ([kyamashita@acap.asia](mailto:kyamashita@acap.asia)), Planning and Training Department.

Sincerely yours,

畠山史郎

Shiro HATAKEYAMA

Director General

Asia Center for Air Pollution Research
